Please find below and/or attached an Office communication concerning this application or proceeding.

Notice of Non-Responsive Amendment

Newly submitted claims 10-11 filed on 2/24/05 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The invention originally claimed did not require a memory for memorizing the predetermined learning materials having a base file in a HTML format, said base file including a first folder having an explanation text folder containing the explanation text and a first module for displaying the explanation text in a first screen section, and second to fourth folders having second to fourth modules for displaying the illustrated information in the second to fourth screen sections, respectively, said first to fourth folders being arranged hierarchically and said first to fourth modules being retrieved and read to be associated with each other.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 10-11 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
